Applicants also wish to bring to the Examiner's attention that, more than one year prior to the actual filing date of the present application, the assignee of the present application and an agent of the assignee used a method for performing send transactions at stores of the agent. The method involved a sender using a telephone at a store of the agent to contact a customer services representative of the assignee to initiate a send transaction. The sender then provided the assignee representative transaction information such as the name of the intended recipient and the desired amount of money to be sent to the recipient. Next, the assignee representative provided a numeric code to the sender. The transaction information and code were also stored on a central data base. Next, the sender provided the code to an employee of the agent, and the employee entered the code into a terminal in communication with the data base to retrieve the transaction information. The data base then transmitted to the terminal a collect amount, and the employee collected the collect amount from the sender.

A copy of each reference listed on the attached Form PTO/SB08A is included herewith. Consideration and entry into the record of these references is respectfully requested.

Respectfully submitted,

DEAN A. SEIFERT ET AL.
